10:45 PM

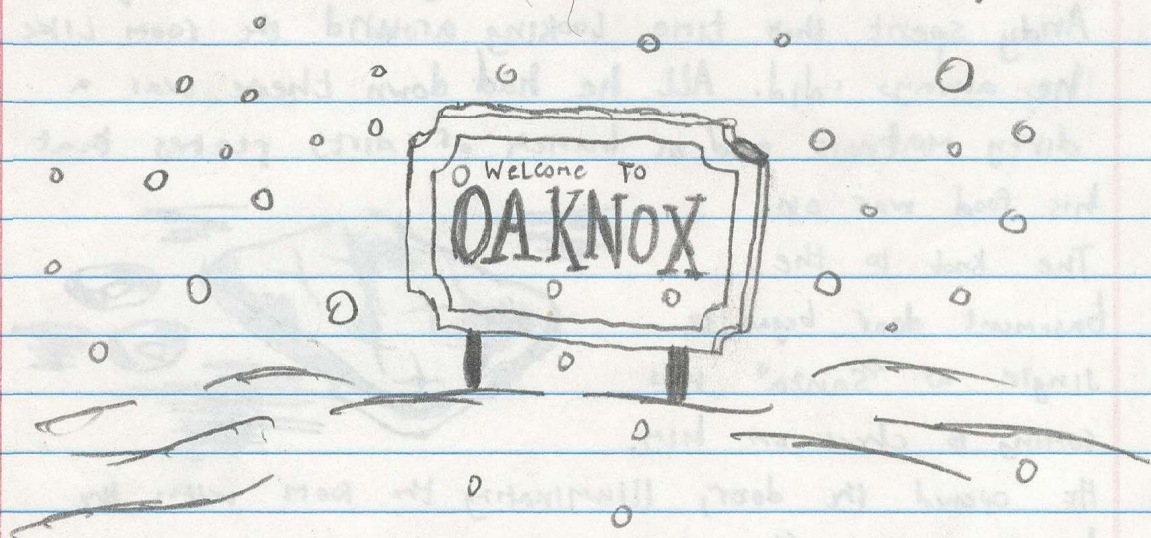

The white blanket of snow fell once again for that time of the year. Too bad for Andy Daxon, who couldn't see the snow. All he could see was the dark and grey walls and floor of the basement. Andy was there for a long time, barely getting food and no social interactions other than the man that kidnapped him a year before. The man seemed to never take the santa costume or something similar off. He was only known as Santa, never took off the persona either. Andy was trapped, but he won't be for much longer. During the year, the police were finding evidence without the "Santa" knowing. They finally found the evidence to pin down where he lives and were heading on their way. Andy spent that time looking around the room like he always did. All he had down there was a dirty mattress and a bunch of dirty plates that his food was on.

The knob to the basement door began to jingle as "Santa" was coming to check on him.

He opened the door, illuminating the room with the house lights. "Santa" was holding a snow globe, "Merry Christmas, you want a present?" He said in a higher pitch raspy voice. He took the snow globe and chucked it down the stairs at Andy's feet. It shattered into a bunch of shards, cutting up Andy's feet.

Andy fell back on his mattress grabbing at his feet in pain. "Santa" chuckled. He began to walk down the stairs until there was a banging at his door. The man stopped and walked up the stairs to check what was going on. That's when many police officers busted down his front and back door. "Santa" began panicking as he started trying to fight the officers pinning him down. While that was happening, more officers rescued Andy and took him off to a hospital where he would reunite with his family. As for the Santa, he was identified to be Willy Bilson, who had a huge amount of mental issues and was deemed too insane to be put on trial and was sent to a mental hospital where he will stay for as long as it takes to clear his insanity, if you even can. Andy was damaged, hungry, sick and traumatized, but he was alive. Being alive was the best gift Andy could of asked for. That, and to never see Oaknox ever again.
